1. **Generally.** Building inspection fees for construction, alteration, or repair of buildings or structures shall be based upon the total cost of the proposed work, including any subcontractors. In no case shall the total cost be less than the market value of similar completed work in the town as

determined by the appropriate inspector. Inspection fees shall be calculated on such basis of cost in accordance with the above fee schedule. Permit fees are based on the cost of construction using a multiplier between \$1 and \$5 per (\$1,000) one thousand dollars of construction.

- a. Basis For Determining The Cost Per Square Foot. The Southern Building Code Congress (BCC) International Building Valuation Data, International Building Code, published biannually, shall serve as the basis for determining the cost per square foot for such work. The averages are adjusted periodically by the BC C to reflect national trends.
- b. *Multiplier. The Town of Spring Lake uses a multiplier per \$1,000 of the most current Building Safety Journal (BSJ) published square footage construction cost.

SAMPLE CALCULATION: Using the Building Valuation Data and a standard multiplier of \$3.00 per thousand dollars of calculated cost and an 11,080 sq ft structure with 3 floors, type VA construction, Group R-2 the formula is as follows:

$$11,080 \text{ sq ft} \times 3 \text{ floors} = 33,240 \text{ sq ft} @ \$91.19 \text{ per} = \$3,031,155.6 / \$1,000 = \$3,031.15 \times 3 = \$9,093.46 \text{ BUILDING PERMIT COST}$$

2. Homeowners Recovery Fund. Whenever a permit is issued for the construction of any single-family residential dwelling unit (house, condominiums, townhouses) or for the alteration of an existing single-family residential unit, a fee in the amount of \$10 shall be collected from the applicant. The town shall forward \$9 of each fee collected to the North Carolina Licensing Board for General Contractors. The town shall retain \$1 of each fee collected.
3. Moving Buildings. The permit fee for moving buildings shall be \$50.00
4. Time Limitation on Validity of Permits. All permits issued under this section shall expire by limitation six months after the date of issuance if the work authorized by the permit has not been commenced. If, after commencement, the work is discontinued for a period of 12 months, the permit shall immediately expire. No work authorized by any permit which has expired, shall be performed until a new permit has been secured.
5. Changes in Work After Issuance of Permit. After a permit has been issued, changes or deviations from the terms of the application and permit, or changes or deviations from the plans or specifications involving any work under the jurisdiction of this section or of any regulatory code, shall not be made until specific written approval of such changes or deviations had been obtained from the appropriate inspector.

7. Minimum Fee. The minimum fee for any building permit is \$50.00.
